

\*Are your students looking for summer enrichment opportunities like internships, volunteer activities, early college options, and other options? The NYCDOE College & Career Planning Team has put together a [Summer Opportunities for Students](#) Guide that includes a comprehensive listing of exciting programs being offered this summer. The Guide includes a useful "how to" planner that students can use to select and apply for programs. Adults can use the accompanying [Implementation & Advising Suggestions](#) - a series of activities, toolkits, and suggestions - to frame students' use of the Guide.
